A MODEL SUPPLIER

Leaders in the burgeoning North American fastener sector, Crown Screw & Bolt has grown from humble beginnings to become a trusted supplier of bolts, nuts, washers, and more

Crown Screw & Bolt (Crown) has evolved over the last 50 years to diligently meet the needs of a vast range of industries, including construction, automotive, aerospace, manufacturing, and many more.

In fact, the North American fastener industry has experienced substantial levels of growth, driven by the upward trajectory of key end-user industries and is expected to be worth over \$25 billion by 2030.

In this context, the company understands its customers' diverse requirements in an evolving sector, having come from humble beginnings and adhering to a simple philosophy ever since: 'Work hard for your customers and offer the best services available'.

Moreover, thanks to a steadfast dedication to industry requirements, Crown has garnered an outstanding reputation for its second-to-none products, best-in-class technical assistance, and most competitive pricing in the market.

Its expert ability to serve customers stems from a worldwide network of supply partnerships, highly comprehensive inventory, professional sales team, and an all-encompassing commitment to excellence, which each help the company stand out in a saturated field.

ONE-STOP SOURCE

Crown boasts a diverse fastener inventory and unsurpassed product availability for its customers, providing them with everything they need to get the job done.

Namely, it is the go-to supplier for all types of nuts, bolts, washers, screws, pins, and specialty fasteners, available in both metric and imperial measurements.

Additionally, Crown also supplies standard and custom brackets, clamps, fittings, metal stampings, and extruded products, offering personal attention to customers' fastener needs.

The company promotes both quantity and quality, stocking world-class brands in its inventory to guarantee the best solutions for businesses across the US.

CUSTOMIZED AND SPEEDY SHIPPING

Delivering an unmatched repertoire of products across the country, Crown's central distribution facility in Indiana – situated at the crossroads of the US – offers fast and easy shipping to every corner of the nation.

The company is committed to maintaining a dynamic and world-class delivery fleet, which guarantees the efficient and reliable delivery of products.

Crown also offers custom packaging and bin stocking services to ensure orders arrive safely in the hands of customers, further guaranteed by the highly accurate packaging and labelling of all products according to strict customer specifications.

The company's delivery services also extend to end user assembly assortment and the option to have items sent bagged or boxed, thus optimizing the entire delivery process.

Crown's customers can also rest assured that purchased items are of the highest quality, as the entirety of the company's product list ardently meets industry standards and is ISO 9001:2000 certified.

CROWN'S PRODUCT LINES

Top-of-the-range companies that Crown has in its inventory include but are not limited to:

- Rotor Clip/Clamp
- Tinnerman
- Oetiker
- Allen
- Universal Metal Products
- E-Z LOK
- Engineered Components Company (ECC)
- Avdel Cherry Textron
- Huck® Fastening
- DimcoGray
- RAF Electronic Hardware
- Holo-Krome

The company also offers the Fastener Locator – an easy-to-use online tool that lets businesses find the best product to fit their needs.

After customers complete a short form to describe what they are looking for, Crown's experienced team conduct a thorough search of their nationwide supply chain to find the most suitable product, before getting in touch with the customer with the best price and availability.

As such, this unique tool grants customers access the best of what the US fastener industry has to offer, all at the click of a button!

Evidently, customers can rely on Crown to provide the best solution as quick as possible.

CROWN SYSTEM BUYING

Crown additionally provides guidance and support with its turnkey Crown System Buying option, which offers each client end-to-end and highly personalized services.

Through the system, the company is able to make a note of customers' buying patterns,

which are then closely analysed by professional sales personnel.

As a result, Crown can compile a list of products that it thinks would be useful for meeting future challenges. Such items are subsequently stocked in the company's warehouse, ready to deliver to customers at a moment's notice.

This unparalleled service alleviates many logistics and warehouse obstacles for customers. For instance, it greatly reduces the burdens of limited inventory space whilst maintaining areas for working capital, therefore allowing businesses to focus more on what matters.

On top of this, Crown System Buying eliminates waiting times for specialist products and large-scale orders, further reducing stress for customers and fostering a more pleasant buying experience.

Most significantly, the service helps facilitate future planning opportunities by pre-empting challenges and providing advanced solutions.

Businesses can make the most of this all-encompassing service by selecting Crown System Buying at the website checkout, creating an easy shopping experience.

A HIGHLY EXPERIENCED TEAM

Crown's success is built on an encouraging family culture, as its employees strive every day to promote the quality nature of its products through a close-knit workforce.

Indeed, the company's experienced team work for their customers, offering an
